Location	Tiffin, Iowa 52340	Coverage	Nationwide
SAM Status	Active • All Awards	Point of Contact	Brandon Stevenson, Owner

WHO WE ARE

Bravo Sierra Group LLC (BSG) is an SBA-certified SDVOSB and VOSB that competes for and holds federal prime contracts in facilities support, janitorial and custodial, logistics and supply, and non-emergency medical transportation. BSG operates as prime contractor and contract manager: we win the work, hold the contract, and manage performance — while qualified specialty subcontractors execute the technical scope in their trade.

Owner Brandon Stevenson is a ten-year U.S. Air Force veteran in aircraft maintenance. BSG's operating discipline — documented procedures, defined inspection checkpoints, single-point accountability — comes directly from that background.

CORE CAPABILITY AREAS

- Facilities support & base operations (561210)
- Janitorial & custodial services (561720)
- Grounds maintenance, snow & ice removal
- Exterminating & pest control (561710)
- Security guards & site support (561612)
- Industrial laundry & textile services (812332)
- Medical/dental/hospital supply distribution (423450)
- Service establishment equipment & supplies (423850)
- Non-emergency medical transportation (485991)
- Document preparation & admin support (561410)

HOW WE WORK WITH SUBCONTRACTORS

- BSG holds the prime contract and is the single point of accountability to the Government.
- BSG retains contract administration, scheduling, quality control oversight, safety compliance, invoicing and all Government reporting in house.
- You perform the technical scope in your trade. You are not asked to manage the customer relationship, chase the CO, or handle contract paperwork.
- Subcontract terms, scope and payment schedule are defined in writing before performance begins.
- BSG structures every award to comply with the limitations on subcontracting at 13 CFR 125.6 and FAR 52.219-14. Partners who are themselves SBA-certified SDVOSBs qualify as similarly situated entities, which materially expands the work we can place with them.

WHAT WE LOOK FOR IN A TEAMING PARTNER

- Active SAM registration, no active exclusions
- SBA-certified SDVOSB status (strongly preferred)
- Trade licensing appropriate to the scope
- Insurance limits that meet the solicitation
- Personnel able to pass installation access screening
- Demonstrated performance in your specialty

CURRENT STATUS & ACTIVE PURSUITS

BSG is an emerging federal prime. The company has not yet completed a federal prime contract, and we say so plainly — we would rather be direct with partners than overstate a record. Our current focus is converting SDVOSB set-aside and VA Veterans First opportunities into first awards, with subcontract teams identified in advance of proposal.

Active pursuit: RFQ FA445226Q0027 / BPA FA445226Q0030 — gear laundry services, 43d Air Mobility Squadron, Pope Army Airfield, NC; issued by the 763d Enterprise Sourcing Squadron, Scott AFB, IL. Base period 1 August 2026 – 31 July 2031. Pending award.
